REGIONAL AWARDS  
2018 WINNER

**February 2016 was an amazing month for us, a little over a year after we had opened we were on a stage in London picking up the award for the best small salon in the UK at the Professional Beauty Awards. Fast forward 2 years and we found ourselves at the Professional Beauty Awards once again this time picking up an award for the best large salon in the North East.**

2016 was and will always be very special to us but to carry on and manage to keep the same high standards whilst expanding to a size we never imagined, envisaged or planned is a testament to everyone who works at the salon and to my wife Samantha who is relentless in her pursuit for perfection and unflinching in how she wants her salon presented and run.

It was fantastic as well to see the joy on the faces of the girls who were able to join us for the night and a true reward for them and everyone else concerned. Winning the award now means we travel to London in February to represent the North East in the National Final, something as a Londoner I find quite amusing but very proud.

It was also really nice to meet so many other salon owners who were not only pleased for us but who told us that they see us as an inspiration and a business that they look up to and want to emulate. It all still seems very surreal to us as to be honest we really do not think we do anything special, just how things should be done.

It's been a busy few months for us as always seems to be the case here at the salon, we've seen new staff arrive, all of whom will add something to the team and the departure of Jemma and Megan who both move onto new chapters in their lives. We've launched 2 new brands that are exclusive to us in Vitage & LightFusion to really give us a full and comprehensive facial treatment menu.

Vitage is a wonderful opportunity to allow us to bring great skincare to as many clients as we can with the £40 Facial.

LightFusion is a wonderful addition to our facials, both as a stand alone treatment and one to add to any facial we provide. It really enhances the results and benefits of all the facials at the salon.

As we move towards the end of another wonderful year at the salon we have tips on the essential products that will help your skin through the winter months along with treatments perfect for the Christmas party season. It leaves me just to wish everyone a very Merry Christmas and a Happy New Year. Let's hope 2019 will be another year to remember.

Paul Beatty

# INTRODUCING VITAGE AT BATG

## The Beauty Industry's best kept secret - Vitage The £40 Facial

**Here at Beauty and Man at the Gate it is really important for us to try and give back to the clients who have supported us over the years and helped us to become the success that we are.**

We recently launched Vitage & LightFusion facials at the salon, these are exclusive to us within the area and they allow us to bring a new type of facial to our clients old and new and give us the opportunity to try and make facials accessible to as many as we can.

Vitage was initially formulated and introduced to the UK in 1998 by Dr Patrick Bowler, founding member and Fellow of the British College of Aesthetic Medicine, becoming one of the first gentle antioxidant ranges produced for the professional market.

Fuelled by antioxidants and botanical ingredients, this gentle yet effective range encompasses everything you need for healthy, plumper and younger-looking skin. Each multitasking product is created and endorsed by skincare experts to offer unbeatable results.

Our Therapists have been trained to bespoke every single facial to the individual needs of our clients. A thorough consultation allows us to tailor very specific ingredients into the treatment to deliver results whilst ensuring a relaxing atmosphere in luxurious surroundings.

Our £40 Facial is 60 minutes of relaxation coupled with ingredients derived from fruit enzymes, botanical extracts, Vitamin C, advanced anti-oxidants and peptides that help to combat the ageing process as naturally as possible

Along with the facials, Vitage has now expanded and developed a retail range of products, giving the consumer professional results at affordable prices. With a wide range of products for perfecting skin, every skincare solution we provide is created and endorsed by skincare experts to offer unbeatable results.

We want as many clients as possible to enjoy the service we provide and have purposely priced this facial as low as we can to allow more clients to come and sample the atmosphere and care that comes from a multi-award winning salon along with sourcing a skincare range that delivers results at High Street Prices.

# Products to Protect Your Skin Through Winter

Now that winter is here, it's time to embrace cosy knitwear, indulge in creamy hot chocolates, and switch up your skincare. Blasts of cold weather, indoor heating, indulgent get-togethers and the stress of the season's festivities can cause unwanted blemishes and a dry complexion, but making a few simple changes to your daily routine can help to keep your skin looking and feeling healthy.

## Moisturise

Rehydration is essential in the winter. Being exposed to harsh weather may leave your skin feeling dry and looking dull, so using a rich, nourishing moisturiser can really help to repair and protect the skin's cells.

### We love: Medik8 Advanced Day Total Protect

This intensely hydrating SPF 30 moisturiser is the most advanced Medik8 day cream ever. Advanced Day Total Protect is formulated to include Pollution Shield, anti-infrared, anti-blue light and anti-A.G.E technology. With the addition of SPF 30 and 5\* UVA protection, this lightweight moisturiser has been created to help prevent premature skin ageing. Fine lines and wrinkles are visibly reduced whilst skin is protected from damage caused by free-radicals, making this daily hydrator great for total environmental protection.

**RRP £55.00**

### We love: Vitage Advanced Moisture Boost

Deeply nourishing and hydrating moisturiser which boosts skins moisture levels. Soothes skin leaving it feeling calm and protected as well as immediately helping to restore dull, tired, dehydrated skin. Skin appears plumper, smoother and more youthful looking. Suitable for all skin types and ages.

**RRP £39.00**

## Exfoliate

Exfoliating not only helps to remove dead skin cells, leaving a brighter, more radiant complexion, but it enables the skin to absorb products more efficiently. In winter, gentle exfoliation will be much kinder to skin.

### We love: Elemis Gentle Rose Exfoliator

.....

Rose has wonderful calming properties, and added Jojoba and Cucumber extracts means this exfoliator is great for soothing and nourishing as well as washing away dead skin cells and built-up impurities.

**RRP £32.50**

## Cleanse

When it comes to cleansing in the winter months, opt for a cream cleanser which is much softer on the skin, helping to remove impurities and make-up without being harsh on the skin's natural oils.

### We love: Vitage Essential Cleansing Balm

.....

A gentle, lightweight multi-tasking cleansing balm that thoroughly cleanses, helps to melt away make up and leaves skin feeling fresh, clean and hydrated. Packed full of natural oils that blend together to efficiently yet gently remove impurities from the skin, whilst also removing any excess oils. The natural multipurpose Marula Oil we use in this balm contains powerful antioxidants and is renowned for being naturally soothing and fast absorbing.

**RRP £36.00**

### We love: Medik8's Calmwise Soothing Cleanser

.....

With sensitised skin in mind, Calmwise Soothing Cleanser™ controls the appearance of redness at its root cause whilst providing quick relief for red, angry skin. This foaming cleanser calms daily environmental stress, discomfort and skin irritation by improving the barrier function of the skin and upholding hydration. With naturally green chlorophyll for healing and antioxidant properties, vitamin K for improving skin health and patented teprenone to soothe distressed and inflamed skin. Skin is gently cleansed with impurities and make-up removed to leave the skin hydrated, detoxified and calmer without its natural protective oils being effected.

**RRP £21.00**

### We love: Dermaquest Algae Polishing Scrub

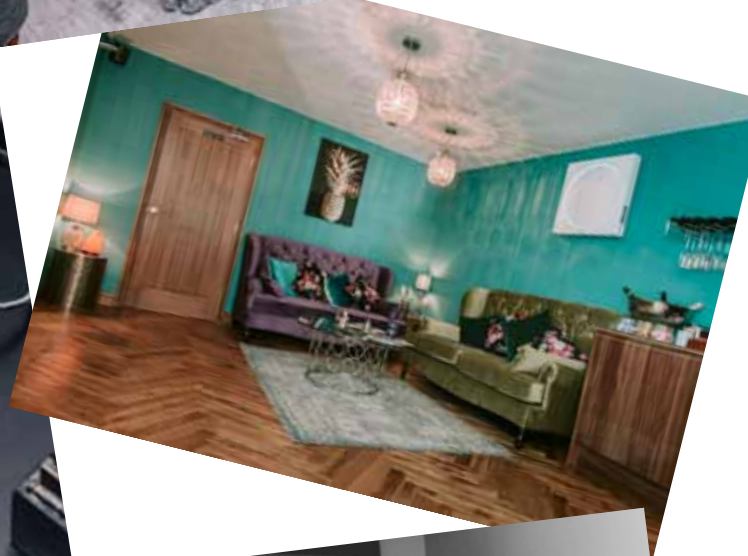

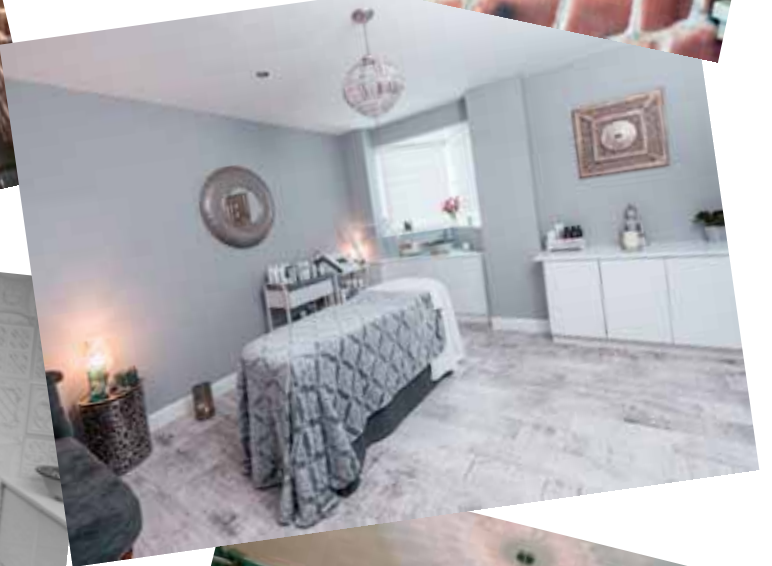

.....

This cooling scrub uses jojoba beads to remove excess skin cells through gentle exfoliating, leaving the skin smooth and prepped for advanced treatment products. Deeply hydrating, this scrub primes the skin for water absorption while relaxing algae extract soothes inflammation.

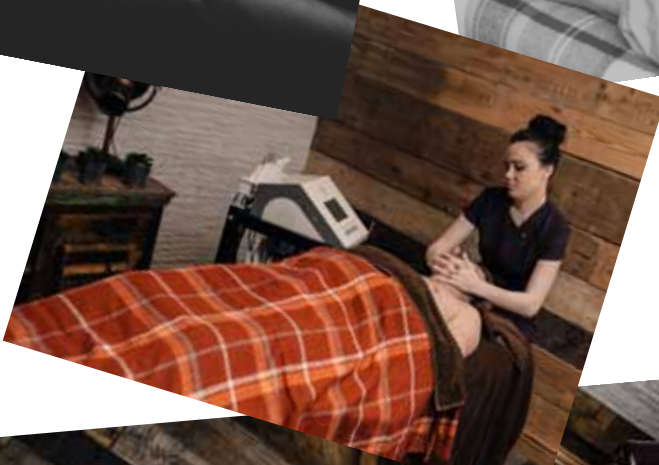

**RRP £25.00**

# BEAUTY AT THE GATE

# MAN AT THE GATE

# THE HEALING POWER OF DERMALUX

**Beauty at the Gate client Luciee Carlton recently had a serious accident at home with some hot soup that left her face with 2nd degree burns and potentially some scarring.**

After a few days of letting it settle down Luciee then came to the salon for a intensive course of Dermalux.

Dermalux is an multi award winning, non-invasive skin treatment which accelerates the body's own natural repair processes to combat the signs of ageing (including lines and wrinkles on the face, hands or body) sunburn, skin damage, pigmentation and overall skin health.

Our Dermalux® Tri-Wave systems combine Blue 415nm, Red 633nm and Near Infrared 830nm which are the most internationally recognised and clinically evidenced wavelengths for LED

Phototherapy. By harnessing the power of these 3 specifically chosen light waves, Dermalux can be used to treat a variety of common skin conditions.

We utilised all 3 light waves to treat Luciee because her injuries needed rapid treatment

and using all 3 lights aided with speeding up recovery, reducing inflammation, stimulating collagen, increase hydration and protecting from infection. We coupled the treatments with homcare from Medik8, Gentle Cleanser and Ultimate recovery helped Luciee's skin recover away from the salon in between treatments.

The treatments also helped to prevent Luciee from suffering from future hyper-pigmentation. Luciee is delighted with the results and extremely relieved to have not been left with any scarring. She has been banned from warming up soup in the microwave

As you can see from the images, Luciee has virtually fully recovered and has not suffered any lasting damage to her skin. Dermalux is available at the salon as a stand alone treatment or as an addition to any facial.

After just one treatment, Dermalux® instantly energises skin cells to revitalise a dull and tired complexion. A course of treatment offers long lasting results, stimulating the skin's natural rejuvenation and repair processes to promote healthy looking skin, accelerate cell renewal and resolve a range of skin concerns.

Great skin doesn't happen by chance. Discover the benefits of Dermalux® and find out how this award winning treatment can transform your skin.

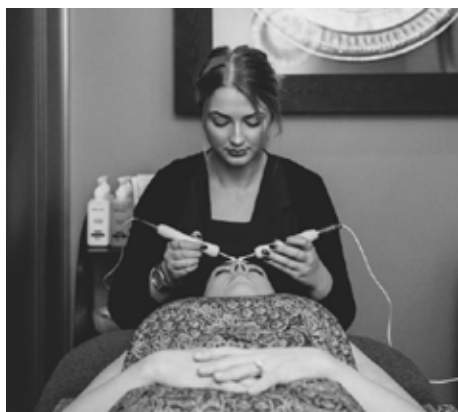

# CHRISTMAS PARTY SEASON TREATMENTS

It's the countdown to the festive season and the pressure is on to get glam for the Christmas party. This time of year can leave you a bit frazzled in the race against time to organise presents, food and drink so the last thing you need is complicated skincare and beauty routines that are impossible to stick to.

Here's our pick of BATG treatments that give maximum results in the minimum time for instant Christmas party glam.

## A-LIFT

A-Lift gives an instant visible lift and radiance which is why it's the treatment favoured by celebrities. It's the perfect treatment to have before a Christmas party to put the sparkle back in your complexion and give you a youthful glow!

A-Lift is a fantastic anti-ageing facial that works by using nano-currents, an electro-stimulation with such tiny wavelengths that they can't be felt, to re-energise the cells in the face and neck.

In other words, A-Lift helps to recharge the batteries in your skin cells which over time have lost energy and that youthful look. The result is loss of volume as the muscles in the face, neck and jaw start to sag.

A-Lift is a pain free, non-invasive treatment that doesn't use injections or chemicals meaning no side effects and no downtime! 'With immediate results and long-lasting effects, it's like airbrushing the signs of ageing away' Karen Betts, Founder of Nouveau Skin Therapy

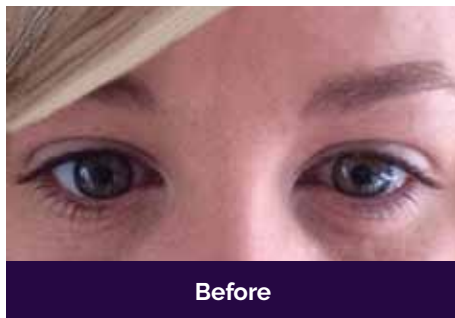

## HD Brows

We love HD Brows here at BATG and it's one of our most popular treatments so we know you love it too!

HD Brows concentrates on defining the shape and colour of your brows using a 7 - step technique that combines waxing, tinting & threading. Created by 'Brow Queen' Nilam Holmes-Patel, it focuses mainly on brow design and shape rather than hair removal.

Our HD Stylists take into account your face shape, hair growth, personality and expectations to design the best brows tailored exclusively to you, consulting with you at every stage to ensure that the brows not only enhance your natural features and frame the eyes perfectly but that they are exactly as you want them in terms of shape and colouring.

HD Brows first saw recognition on shows like the X-Factor and is loved by many celebrities including Kylie Minogue, Rochelle Humes and Ellie Goulding. It is a quick, easy and modern way to bring out the best in your natural features and a must for party season!

Before

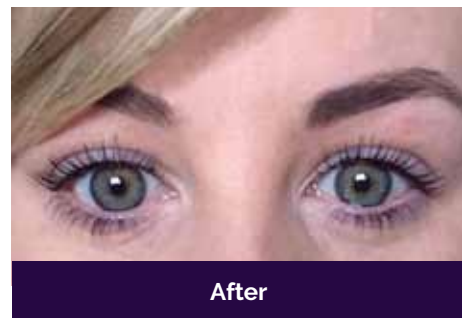

## LVL Lashes

LVL Lashes is another favourite here at BATG and perfect for creating a natural wide eyed look to enhance your Christmas party make-up with minimum effort.

LVL enhances your natural lashes to really make your eyes pop without the use of extensions or perming. It's a revolutionary natural lash treatment that's also a great time saver - you can wake up with fantastic looking lashes and say goodbye to mascara for good- LVL adds natural Length, Volume and Lift!

The treatment uses an innovative technique to gently lift and straighten the lashes using silicone shields instead of rods, these are far more comfortable during the treatment and much kinder to your lashes. Another key difference is that the LVL formulation actually straightens the lash rather than curling it, resulting in a superior lift, added volume and longer looking lashes.

There's no need for harsh chemicals which are used in perming or extensions that are attached to the lash with adhesive, both of which can leave you with sparse or damaged lashes.
